1. QUICK SETUP

- Install **Gravity Forms** (not included in this plugin)
- Upload and Activate the „**Gravity Forms - List & Edit**“ Plugin
- Setup the Form Settings at the Gravity-Forms Settings Page
- Setup the Field Settings for each Form-Field that should be displayed at the Advanced-Settings
- Include the 'Gravitylist' Shortcode at your content

2. UPLOAD AND ACTIVATE

2.1. UPLOAD

After you downloaded and saved the '**Graviy Forms - List & Edit**' Plugin you have to upload it to your wordpress installation.

Please go to you 'Plugins/Add New' Menu, select 'Upload' from the top links and choose the downloaded ZIP-File at the upload-field.

After selecting the File please press the „Install Now“ Button.

If you have a plugin in a .zip format, you may install it by uploading it here.

Durchsuchen... gravityforms_list-and-edit.zip

Install Now

2.3. UPDATING THE PLUGIN

If you updated the plugin from a release lesser than 2.0 you have to re-save all the settings.

3. SETUP YOUR FIELD SETTINGS FOR THE ENTRY-LIST

3.1. FIELD SETTINGS

For each field you want to display in your DataTable, you can define the position at the Gravity-Forms Field-Settings.

At the bottom you could select the number of the position for each field.

The screenshot shows the 'Single Line Text : Field ID 1' settings window. It has a title bar with a maximize button, a copy icon, and a close button. The main content area is titled 'Single Text Line' and contains a text input field. Below this are three tabs: 'General', 'Appearance', and 'Advanced'. The 'General' tab is selected. Inside the 'General' tab, there are several settings: 'Field Label' with a text input field containing 'Single Text Line'; 'Description' with a larger text input field; 'Input Mask' with an unchecked checkbox; 'Maximum Characters' with a text input field; 'Rules' with two unchecked checkboxes, 'Required' and 'No Duplicates'; and 'Gravitylist Order' with a dropdown menu showing '1'.

3.2. SETUP THE GENERAL SETTINGS

For each Form you could define the general Settings at the default Gravity-Forms Settings Tab.

Gravity List

Show records to

everyone

To wich users to entries should be displayed

Enable Paging

50

Enable the Paging-Mode at the DataTable

Enable ordering

☒

Enable the Ordering-Mode at the DataTable

Enable Searching

☒

Enable the Search-Box at the DataTable

Preferred Data Source

Gravity Forms API

Wich Data-Source do you prefer to build the list.

Update Form Settings

Field	Description
Show records to	Define who is allowed to see the Records : all - All users can see the records logged in - Only logged-in users can see the records entry creator - Only the user who created an entry can see his own entries only to the admin - Only an admin-user ca see the records
Enable Paging	Enable the Paging feature at the DataTable. At the Selectbox you can select the default number of records to display.
Enable Sorting	Enable the Forting feature at the DataTable
Enable Searching	Enable the search-box and feature at the DataTable

4. INCLUDE THE GRAVITYLIST SHORTCODE AT YOUR POSTS OR PAGES

To display the Datatable you have to add the 'gravitylist' shortcode at your posts, pages or custom post types.

The easiest way is to add a default Gravity-Forms shortcode with the 'add form' button

At the Gravity-Forms dialog you could select the needed form

Insert Gravity Form

×

Insert A Form

Select a form below to add it to your post or page. ?

Standard Fields

▼

Can't find your form? Make sure it is active.

☒ Display form title ?

☒ Display form description ?

☐ Enable AJAX ?

[Advanced Options](#)

Insert Form

Cancel

The Gravity-Forms dialog will insert a shortcode to your post or page.

```
[gravityform id="1" title="true" description="true"]
```

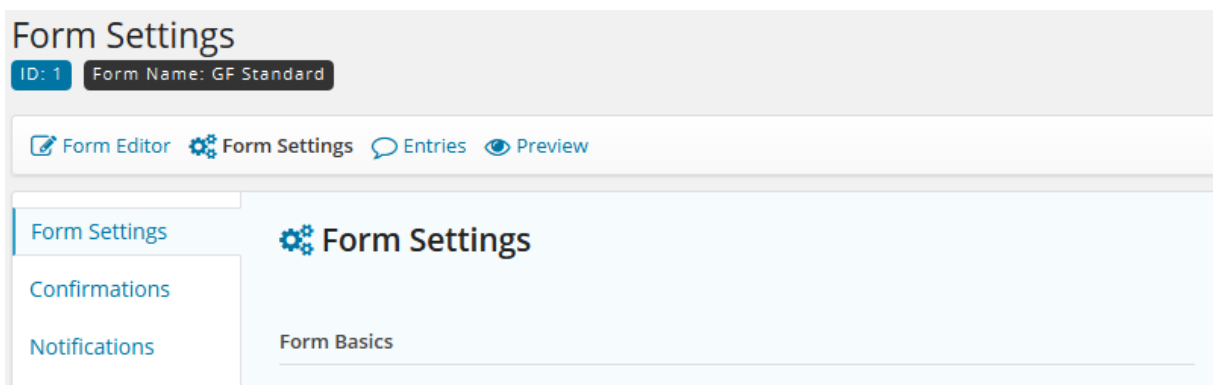

Now only change the 'gravityform' name to 'gravitylist'. Thats all.

```
[gravitylist id="1" title="true" description="true"]
```

5. SETTING UP THE PLUGIN FEATURES

5.1. ADDITIONAL SETUP FEATURES

At the Form-Settings you have some additional Settings to Control the display of your Entries.
Please go to the Form-Settings-Tab of Gravity-Forms.

At the Bottom you'll find the new Settings of the „Gravity-Forms - List & Edit“ Plugin.
