

 wpDataTables

First of all, thank you for purchasing wpDataTables 2.2! **You are awesome!**

wpDataTables 2.2 is a Charts and Tables manager plugin. In order to always keep documentation up-to-date, [we provide documentation online only on this link](#). You will find thorough explanation of all the product's features, with demos, examples and video tutorials.

If you are looking for support you are [welcome on our support system here](#).

Here are some useful links to get you started:

- [Creating tables manually from WP-Admin](#);
- [Creating tables from MySQL queries](#);
- [Creating tables by linking Excel files](#);
- [Creating tables by linking Google Spreadsheets](#);
- [Tables with editable content](#);
- [Creating charts](#).

These are just several - but you will find a lot more if you browse our documentation site.

We hope you will enjoy using our plugin!
