Configuration

Follow the following steps to configure WooCommerce Orders Progress Bar.

Click on 'WooCommerce > Orders Progress Bar' from admin menu to open the settings page.
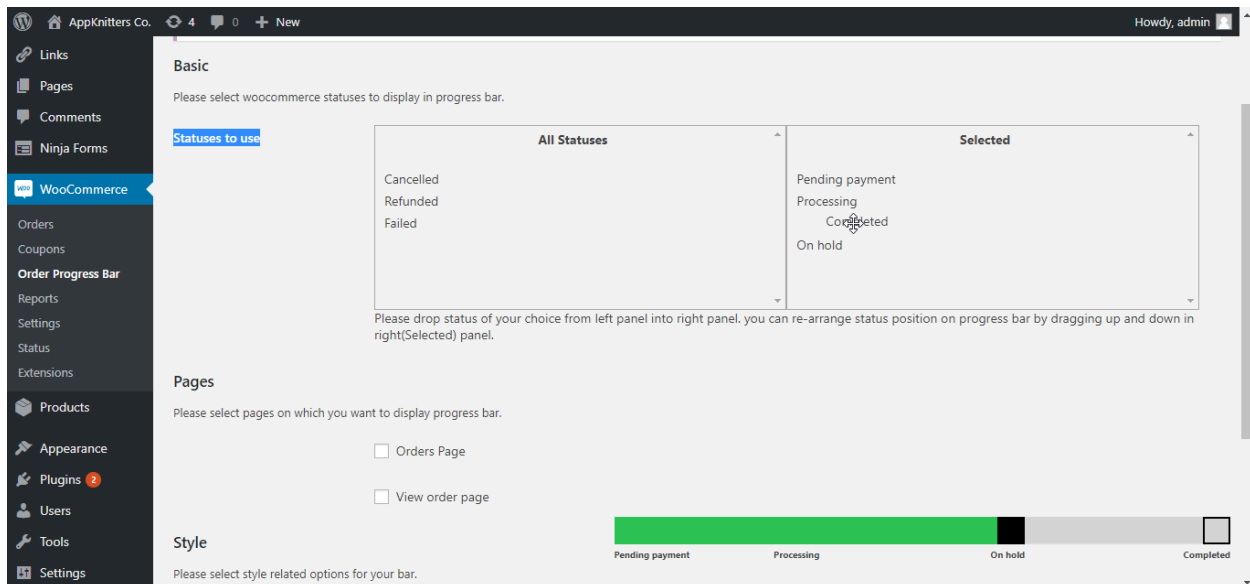

Statuses to use

In this section you can select and re-arrange Order Statuses to make them visible on Progress Bar.

Just drag the statuses of your choice from *Right Pane(All Statuses)l* and drop it into *Left Panel(Selected Statuses)*.

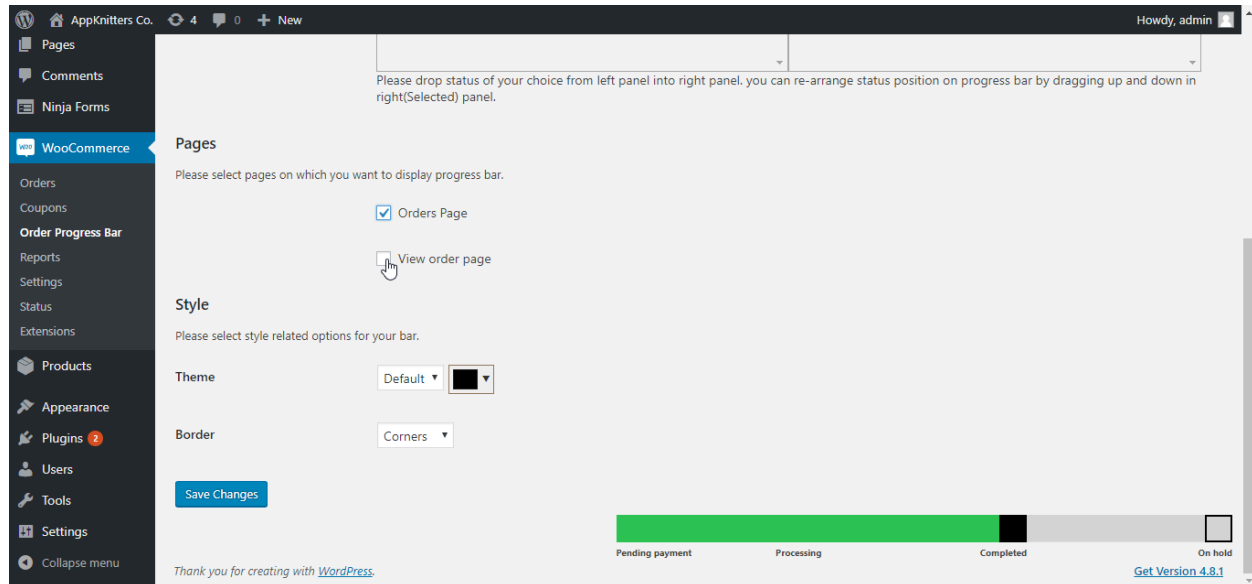

Re-arrange Statuses

You can also drag and drop vertically in Right Panel (Selected) to re-arrange the statuses. The one on top will be shown first in the Progress Bar.

Pages

In this section you can turn the Progress bar visibility ON or OFF for customer. Progress bar is only visible on 'Orders' and 'View Order' page in Customer 'My Account' area.

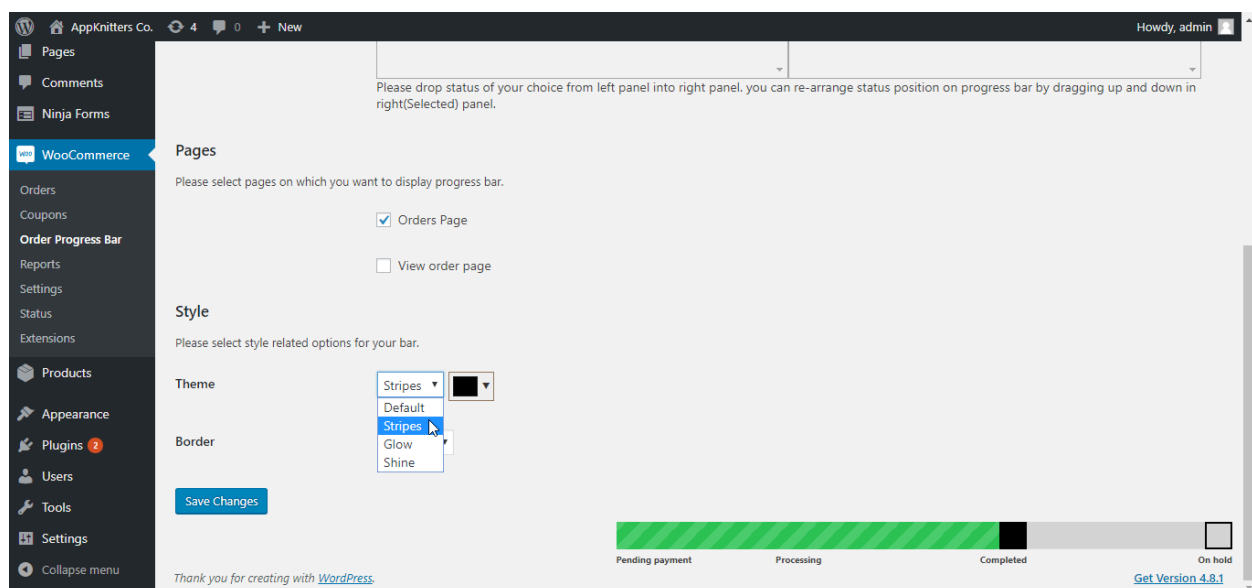

Style

In this section you can select design of Progress Bar.

Theme

To select the theme you need to scroll down to **Style > Theme** section in WooCommerce Orders Progress Bar's Configuration page. There are currently four themes available. You can select the one you like from drop down menu. We will add new themes in future.
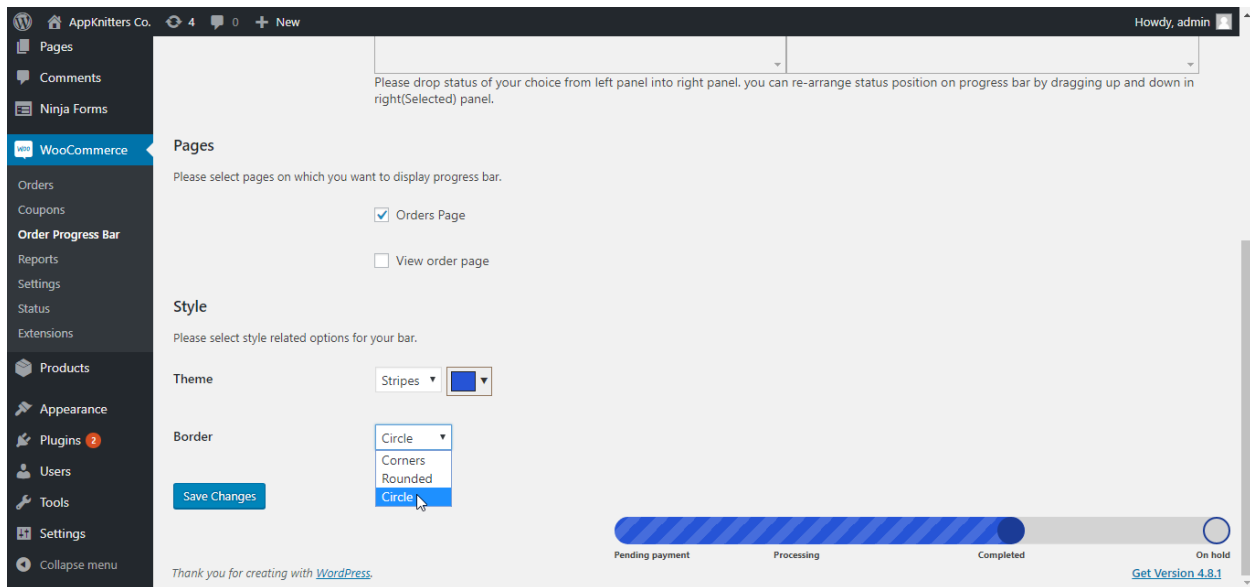

Color

You can change progress bar color by selecting the color of your choice from color picker, next to themes dropdown.

Border

To change border roundness, please scroll down to Style > Border section in WooCommerce Orders Progress Bar's Configuration page. You can select the border stayle from Corners, Rounded and Circle.
