

## **Getting started:**

Theme installation is a 2-part process. All of our themes come with an installable control panel which is used for configuring options.

It is necessary to install both the theme **and** extension. Everything you need is inside the download folder of your purchase.

1. [How to install our phpBB themes](#)
2. [How to install phpBB extensions](#)
3. [How to set theme to default](#)

## **Getting started:**

All of our documentation & feature guides are hosted online here: <https://docs.planetstyles.net/>

## **After-sales support:**

Most questions can be answered by reading the documentation. The “Common problems” section also contains solutions to common installation / configuration issues:

<https://docs.planetstyles.net/category/6-common-errors>

If the documentation doesn't solve your problem, you can message us through ThemeForest:

1. Log in to your Envato account
2. Go to your downloads page
3. Click the item you need help with
4. Click the “Support” tab
5. Send us a message using this form

We usually reply within 12 hours, but sometimes this can be 24.
